

Support Services

Cost Reporting

BSE Cairns Slipways cost reporting system is comprehensive and efficient, providing Owners and Captains with the up to date financial information they require to ensure budgets are on track.

Classification Societies

Surveyors for most of these Societies are resident in Cairns including Lloyds, ABS, DNV and B.V. (refer to our Cairns Region, services and facilities page for contact details).

M.C.A. requirements can usually be carried out by Lloyd's surveyors under the direction of M.C.A.

Office Facilities

The yard can provide office facilities for Crew and Owner's Representatives in close proximity to both the dry-dock and slipway and include landlines, computer connections and amenities. The slipway office provides dedicated mailboxes, for vessels where crew can collect and despatch mail, faxes and freight consignments.

Secretarial services are also available on request and all new clients are issued with the in-house published BSE Cairns Slipways information booklet which provides information not only regarding the facility, but also the region. Maps, phone books and other helpful resources are available in the BSE Cairns Slipways office.

Procurement

Our Purchasing and Stores division provide many years of experience in the procurements of parts and components required during a refit and can assist vessel engineers and crew with their enquiries regarding suppliers and specialist equipment.

Project Management

BSE Cairns Slipways has a dedicated team of project supervisors and managers allocated to specific markets and combined they have over 100 years of experience in ship repairs and refits. This one point of contact ensures effective communication between the ship and the shipyard's workforce. This ensures work coordination and effective planning.

Safety

The safety of our clients and staff is paramount, therefore on arrival, ships crew are to attend a familiarisation session with our dedicated Workplace Health and Safety Officer who will outline safety procedures to ensure your refit period is safe and uneventful. We have a team of dedicated first aid officers and a fully equipped first aid room on standby in case of any emergencies.

Security

The yard has a security guard present from 6.00 am to 6.00 pm Monday to Saturday and a vehicle patrol during the night with regularly conducted foot patrols, to ensure the security of our wharves and site in general.
